OFFICE OF PETITIONS

Applicant: Chih-Ming Ke

Appl. No.: 10/628,914

Filing Date: July 29, 2003

U.S. Patent No.: 6,979,820

Issue Date: December 27, 2005

Title: CD SEM AUTOMATIC FOCUS METHODOLOGY AND APPARATUS FOR
CONSTANT ELECTRON BEAM DOSAGE CONTROL

Attorney Docket No.: 252016-2160

Pub. No.: US 2005/0023463 A1

Pub. Date: February 3, 2005

This is in response to the "Request for Corrected or Revised Patent Application Publication under 37 CFR 1.221(b)," which was received on March 7, 2005, for the above-identified application.

The request is DISMISSED as moot.

37 CFR 1.221(b) is applicable "only when the Office makes a material mistake which is apparent from Office records." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.¹

Since the application has already issued as U.S. Patent No. 6,979,820 on December 27, 2005, the request is deemed moot.

Inquiries relating to this matter may be directed to Mark Polutta at (571) 272-7709.
